

## Why Join United Infrared?

United Infrared was created by thermographers, for thermographers. As the saying goes, experience is always the best teacher. Joining United Infrared adds decades of experience in the infrared industry to the services you provide for your customers. The benefit is two-fold. One - members receive all the tools, equipment, training, mentoring and business management coaching required to provide exceptional service to your customer base. Two - members will be provided with actual sales leads in a defined territory as well as invaluable sales and marketing resources created by professionals with decades of infrared industry experience.

## Membership Benefits -

- Credibility and Support
- Discounts on Basic Infrared Training
- Discounts on Equipment
- Application Specific Training
- Mentoring from professionals with decades of experience
- Business Management Coaching including templates for reporting, invoicing, legal documents, etc.
- ACTUAL sales leads within a defined territory
- Sales and Marketing Resources
